WHY CHOOSE SINGDERM®?

Advantages

Good filling effect

- High viscoelasticity, not easy to shift deformation, strong support, keep good volume.

Long-lasting

- The high concentration of 24mg / ml and SingLink® crosslinked technology to guarantee long-lasting effect, can last more than 12 months.

Safety

- American FDA approve Materials
- With the terminal sterilization
- Good biocompatibility

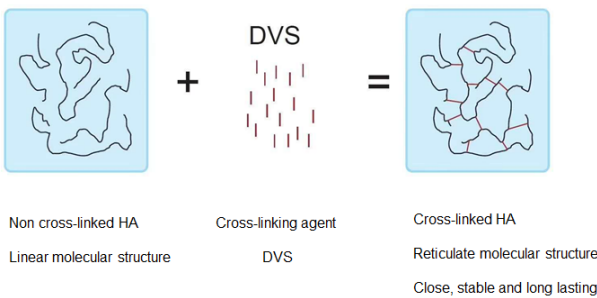

Relaxed injection experience

- Use mono-phase, Soft and natural, no particle foreign body feeling.
- Mixed 0.3% lidocaine to avoid the pain.

Characteristic

- **SingLink® cross-linking technology** to create a three-dimensional network structure, stable and long lasting.

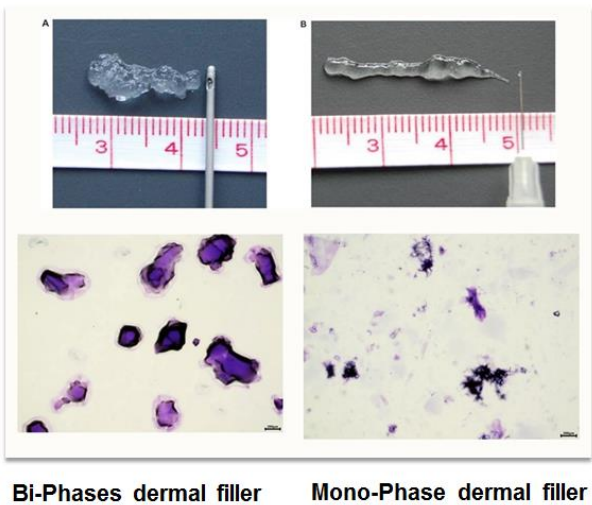

- **High Cross-linking Ratio** means better clinical effect.

Content mg/ml	Singderm®	Product A	Product B
Indicated Content	24	24	20
Free Content	3.2	8.4	11.2
Actual Content	20.8	15.6	8.8

The actual concentration of cross-linked HA was **measured** by the filter paper filtration method.

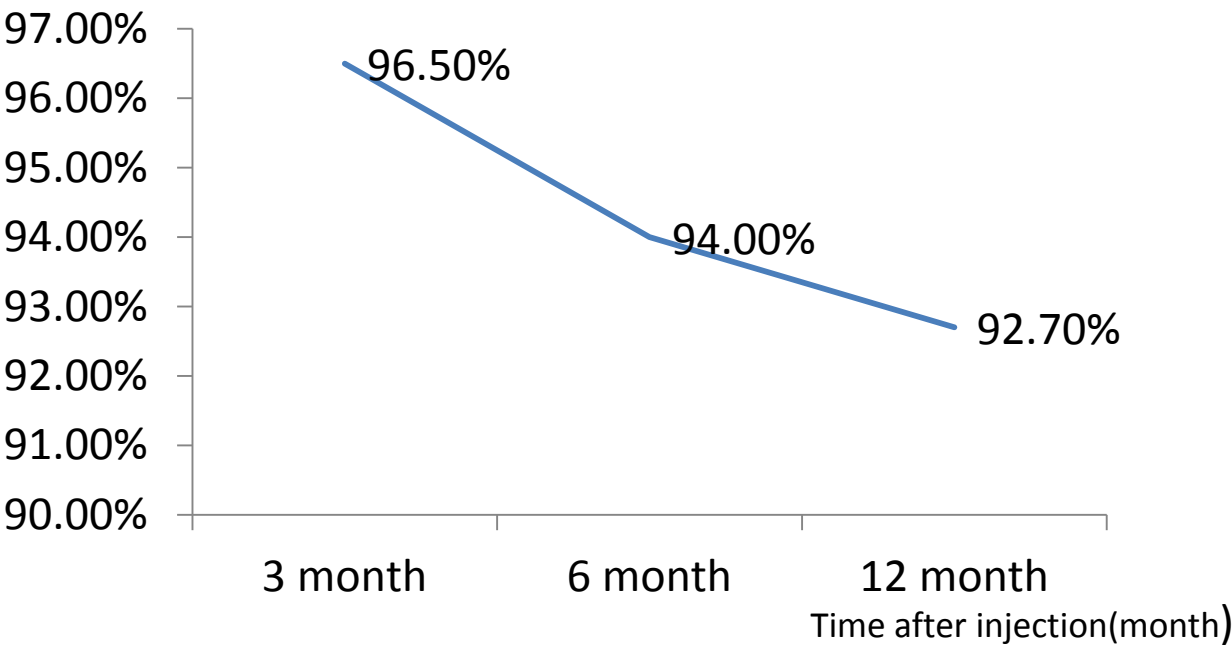

- **Mono-phase cross-linking** is smooth and no particle foreign body feeling. Less to occur pain, swelling symptoms.

Clinical Date

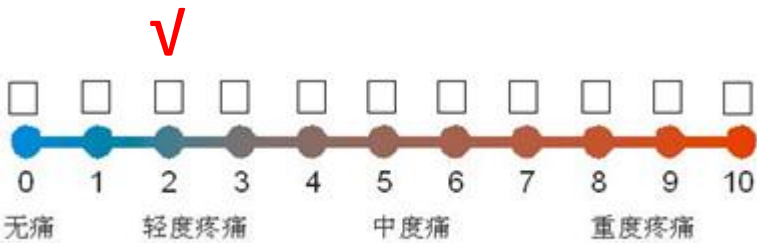

➤ Singderm® is long-term efficacy, The efficacy rate of is 92.7% at 12 month, longer than other similar products.

The efficacy rate %

- The efficacy rate is measured by wrinkle severity rating scale(WSRS) from baseline.
- This clinical trial being a self-controlled study was performed in three clinical sites, 100 subjects participated.

➤ Singderm® is safety and less pain, The median score of pain was 2.0, equivalent to international famous brands, no adverse events occurred.
